Bring the literacy expertise of Irene C. Fountas and Gay Su Pinnell to all students in your classroom—and open the doors to a world of opportunity beyond.

*Lift students' learning beyond the walls of the classroom with texts and a blueprint for teaching that create authentic experiences in reading, thinking, talking, writing, and reflecting to realize what it truly means to **live a literate life.***

Fountas & Pinnell  
**Classroom™**

Put expertise into action with Fountas & Pinnell Classroom™ (PreK–6): a first-of-its-kind, cohesive system for high-quality classroom-based literacy instruction.

Envision the ideal design for literacy instruction in your school. What are your values and vision for the literacy lives of the students in your classroom? What student resources are in your classroom? What teaching tools and professional learning opportunities do you need for your own growth?

Turning a literacy vision into action requires the process of design—a plan for a system that works in a coherent way, where every component fits together in a streamlined whole to reflect a transformative vision of literacy education.

*Your classroom is a place where students learn how to read, write, and expand all of their language skills, but it is much more. It is a place where they learn how to be confident, self-determined, curious, kind, and literate members of a community. Fountas & Pinnell Classroom™ provides the opportunity*

**for students to:**

- see themselves reflected in the books they read and write about
- grow as thoughtful users of literacy
- engage in real reading, writing, and thinking

**and for teachers to:**

- work at the cutting edge of students' learning
- support independence and student agency
- understand the critical role of responsive teaching in leading literacy learning forward.

Building upon the transformational impact of earlier Fountas & Pinnell Literacy™ offerings including:

- *Benchmark Assessment System (BAS)*

Heinemann is pleased to announce Fountas and Pinnell's new classroom-based literacy system, designed to change the landscape of reading instruction.

*“Within the social world of classrooms, students learn what it means to be a global citizen. Through books, learning extends beyond the classroom walls. They learn how to collaborate, how to learn, how to solve problems.”*
